

Not only am I an XM Radio subscriber, I am a shareholder. I choose to pay \$10 a month to have a variety of musical, entertainment and talk show formats at my fingertips. I live in a city in which all but a handful of stations are owned by the behemoth's. I am tired of the same old tired top Forty format. That is why I choose to PAY FOR MY RADIO!!!!!! Please reject NAB Petition 04-160. Did not protect the interest of an association against healthy competition in a marketplace that desperately needs to change anyway. If I pay for a service from a corporation in a free market society, then that corporation should be afforded the ability to compete in an open market. Not in one that is controlled by a few individuals with deep pockets who are out of touch.
